SOLUTIONS FOR STATE AND LOCAL GOVERNMENT

Lenovo recommends Windows 8 Pro.

Virtualization Ready, High Capacity
ThinkServer® RD340 Solution

High Efficiency: ThinkServer® RD340 1U Rack Server
Performance Optimized: 128GB Genuine Lenovo Memory

Bigger Data: 2TB Storage Capacity

Starting at just $1,790
Over $300 in savings

An Innovative Virtualization Solution Built for Government

Government IT is tasked with delivering greener technology on leaner budgets. Agencies need products that drive efficiency goals without sacrificing capability. Whether you are supercharging existing VDI racks or building a virtual infrastructure from scratch, Lenovo’s ThinkServer® RD340 tackles big data while using 45% less power.1

Efficiency is important, but so is network reliability. The super-efficient RD340 is also designed for maximum durability, from a shock and vibration resistant form factor to full data and power redundancy. If it’s mission-critical, the RD340 is ready.

The Heart of Today’s Evolving Data Center

Intel® Xeon® E5-2407 v2 Processor (2.4GHz, 10MB Cache, 80W) is at the heart of a flexible and efficient data center that meets your diverse needs. Designed to deliver the best combination of performance and cost-effectiveness, from virtualization and cloud computing to real-time transactions, you’ll be delighted with ThinkServer performance.

Our State and Local Government Solutions equip you with technology that prepares you for the challenges of tomorrow while modernizing infrastructure and improving ROI. The ThinkServer RD340 features cutting-edge power consumption management tools combined with outstanding performance. Its enterprise-grade manageability and legendary Think reliability make it an outstanding value that pays you back.

Lenovo Government
LEADING THE INDUSTRY IN RELIABILITY AND INNOVATION

Lenovo is a proud technology partner to over 900 state and local government agencies. Our extensive government experience helps us understand your challenges and priorities and deliver products that are reliable, secure, green, TAA-compliant, and available through WSCA and many state contracts. Lenovo recently opened its first US assembly plan in Whitsett, NC, enabling faster delivery times and a broader services portfolio.

THINKSERVER RD340 DELIVERS: ENTERPRISE-CLASS FEATURES:

Supports Green Initiatives
- Lenovo-exclusive SmartGrid technology helps you maximize and demonstrate power savings
- Up to 45% more efficient than previous generation servers
- ENERGY STAR®-qualified
- 80+ Gold rated power choices
- RoHS compliant

Up to 80 Percent Higher Performance
- Advanced multi-core, multi-threaded processing
- Higher performance for peak workloads with Intel® Turbo Boost Technology 2.0
- Industry leading I/O performance
- Faster communications in dense virtual environments

Enterprise-Grade Manageability
- Included EasyManage software proactively monitors performance
- Custom notifications alert administrator to service degradations before they impact end users
- Common interface and open standards for setup and management

SAVE OVER $1,100 NOW WITH OUR EXCLUSIVE GOVERNMENT SERVER SOLUTION

THINKSERVER RD340
- 1U Rack Server with Intel® Xeon® E5-2407 v2 Processor (2.4GHz, 10MB Cache, 80W)
- 3 Year Onsite Service
- Included Smart Grid and EasyManage software
- TAA compliant

GENUINE LENOVO MEMORY
- Up to 192GB
- 12 slots
- LV RDIMM

2TB STORAGE CAPACITY
- 2 x 1TB hard drives
- 7200 rpm
- 3.5” Enterprise-grade SATA
- Hot swap capability

INCLUDED GOVERNMENT SERVICES
- 3 year 24x7 Priority Technical Support Service
- 4 hour Onsite Response
- Keep Your Drive service
